

Pictures That Inspire Stories

About the Authors

Webster (Russ) Russell and Dee Coffeen are well known authors of both fiction and non fiction books. They met on the internet and that experience led them to write their second book, “The Second Time Around - A Guide through the Maze of Internet Dating”.

They are best known however for their young adult fantasy “Harry and the Stock Tank Dragon”.

Even though they are both “seniors” they lead an active life of writing, cruising, photography, and being with friends and family. They have been around the world twice, stepped on all seven continents, and visited 90 plus countries.

If writing books and cruising were not enough to keep these two busy, they also author a cruising website, a NextDoor cruising page and as you can see, they create photo journals of the world.

If you were to meet the many people throughout the world that know these two, they will tell you they are fun, creative and curious, all great attributes for authors.

Russ and Dee make their home in central Texas and can be reached at gwtr1940@gmail.com.

There is a little in all of us I try to that part of me via photography and writing. Dee expresses hers color, subject, and writing as well. We have traveled to ninety countries and stepped on all seven continents. These pictures are a sampling of those travels.

What we are trying to accomplish with this photo journal, is to show pictures that will stimulate your creativity to creat a story around them.

For example, the picture on the left was taken in Burano Italy. As you see the picture is of a town square which aside from Dee is unremarkable. However look at the roof on the red house. This is an example of a picture tha can inspire a story
